What to Do for Itching Skins

There is usually immediate relief for skins itching, burning and disfigured by eczema, ringworm, or similar tormenting skin-trouble, in a warm bath with resinol soap and a simple application of resinol ointment.

The soothing, healing resinol medication stops itching at once, and soon clears away all trace of eruption, even in severe and stubborn cases, unless the trouble is due to some serious internal disorder. You need never hesitate to use resinol. It is a doctor's prescription that has been used by other physicians for twenty years in the treatment of skin affections. It contains absolutely nothing that could injure the tenderest skin. Every druggist sells resinol ointment and resinol soap. Resinol Soap soothes tender skins and helps to make poor complexion clear, fresh and healthy, because it contains this resinol prescription.

Murder On the High Seas.

When a merchant vessel loaded with civilians is torpedeed without warning or chance of escape the barbarism is the same whether the passengers and crew are Americans or of other nationalities. If it is an offense against humanity to sink a ship that carries Americans it is equally an offense to sink a ship that carries civilian Englishmen or Frenchmen or Germans. Americans have no special protection under international law. If the German admiralty has murdered our citizens on the high seas it has more numerous murdered the citizens of other nations. Our civilians have no greater right to their lives than have other civilians.

The main incident of the German admiralty is not that it has slaughtered Americans, but that it has offended against the laws of humanity. It has not been the practice of our government to protest except when our citizens were attacked. We may not expect our rights to be respected if the rights of others are disregarded with our consent. It will seem to many as if the administration has made a grave mistake in assuming that what happens is none of our business, provided our citizens escape. This policy has robbed our protests of a large part of their moral force. We should not appear to be pleading for special privileges or immunities.

Knight errantry is not yet fashionable among nations. Yet it has uses. It is well to associate the defense of our citizens with the support of the general rights of mankind. The ocean bottom is strewn with the bones of several thousand persons who have been sent to their death in defiance of international law. If we assert that murder occurred when Americans were the victims we must also assert that murder was committed when men, women and children of other nations are the victims. Men of military age on a captured ship can be held as prisoners, but civilized war does not recognize the right to give no quarter. Not since Alva carried on wholesale butchery in the Netherlands has there been such stark barbarity as has marked this war.—New York Globe.

If you have a bad taste in your mouth, tongue coated, appetite poor, lazy, don't-care feeling, no ambition or energy, troubled with undigested food, you should take Olive Tablets, the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Quaker RANGES

This Store Sells Quaker Ranges with Greatest Satisfaction!

It doesn't take long to tell the reason why. We know for a certainty just what the new Quaker owner is going to tell us as soon as the first test comes. Day in and out, if you were to visit our Range Department, you would hear just such exclamations as these, "What a fine baker!"—"How long the fire lasts!"—"My, but the oven does wonders!"—"Mother had a Quaker and so did grandmother."

Can't you see that there is satisfaction written in every one of these expressions, and if a satisfied customer is not the best advertisement for any business, what is?
